## Section 1. Introduction

MAQIS DVS been authorized to issue import, export and transshipment permit using ePermit platform system that has been provided by Dagang Net Technologies as the Permit Issuing Agencies (PIA). The platform boasts smooth gateway integration to Customs' Sistem Maklumat Kastam (SMK), enabling speedier and reliable processing for the benefit of customers of the agencies contributing to the national agenda and economy.

### 1.1. What is ePermit System?

ePermit is a web-based applications system developed, hosted and managed by Dagang Net Technologies Sdn Bhd (DNT) and provides an Application Service provider (ASP) model of service to communities of Permit Issuing Agencies (PIA) and Importer/Exporter to apply and manage permit application online.

By using the application, the Importer/ Exporter will be able to supply and manage permit via online and next to track the application progress subsequently. Whilst the OGA will be able to view and process (approval etc) permit applications submitted directly from the system.

### 1.2. How does ePermit System Benefit Me?

- Reduces Turnaround time – faster processing of permit
- It's convenient – ePermit is accessible from any computer that is connected to the internet.
- Ease of Use – user friendly even for non-PC savvy
- Multi Tasking – access to various value-added services. For example, Tariff Codes, Location Codes.

### 1.3. Who Should Read This Publication?

This user manual is designed to accommodate the specific requirements of each user. This publication (or topic collection) is intended for.

- i. Traders
- ii. Forwarding Agents

### 1.4. About This Document

This publication is to provide an overview on how Traders/ FA can apply import/export permit, make payment, and print permit via this system and deeper understand on the system with step by step helps.

## 1.5. Support Information

Should there be any issues arising from the use of the system, please contact Dagang Net's Careline.

## Section 4. New Permit Application

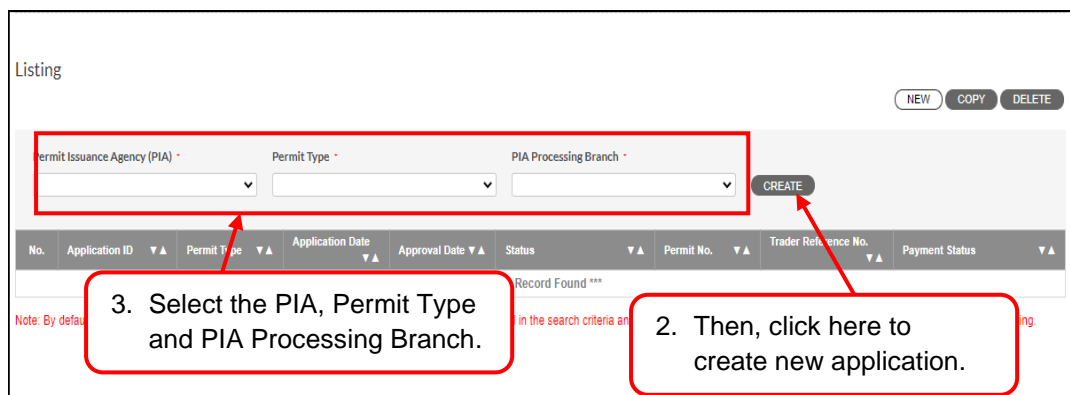

ePermit system allows users to make permit application directly from the system. Users can also keep track the status of their application thru this system.

### 4.1. Create New

The screenshot shows the 'TRADER LISTING' interface. At the top, there is a search section with several input fields: Application ID, Permit No., Application Date (From) and (To), Approval Date (From) and (To), Permit Issuance Agency (PIA) (with a dropdown menu showing 'MAQIS / JABATAN PERKHIDMATAN VET'), and Permit Type (with a dropdown menu showing 'Please Select'). There is also a Status dropdown menu. Below the search section is a table with columns: No., Application ID, Permit Type, Application Date, Approval Date, Status, Permit No., Trader Reference No., and Payment Status. At the bottom right of the table, there are three buttons: 'NEW', 'COPY', and 'DELETE'. A red box highlights the 'NEW' button with the text '1. Click New to create new application.' and a red arrow pointing to the button.

Figure 8

The screenshot shows the 'TRADER LISTING' interface, focusing on the search filters. The filters include Permit Issuance Agency (PIA), Permit Type, and PIA Processing Branch, each with a dropdown menu. A 'CREATE' button is located to the right of these filters. A red box highlights the 'CREATE' button with the text '2. Then, click here to create new application.' and a red arrow pointing to the button. Another red box highlights the three dropdown menus with the text '3. Select the PIA, Permit Type and PIA Processing Branch.' and a red arrow pointing to the first dropdown menu. Below the filters is a table with columns: No., Application ID, Permit Type, Application Date, Approval Date, Status, Permit No., Trader Reference No., and Payment Status. The table shows 'Record Found \*\*\*' and a note: 'Note: By default in the search criteria and filtering.'.
