

SIRIM QAS INTERNATIONAL SDN BHD
(COMMUNICATION AND MULTIMEDIA CERTIFICATION SECTION)
ePERMIT ENHANCEMENT - 31 7 2013

1. One Import Permit for One Consignment

Effective from 31st July 2013, one import permit for Communication and Multimedia products shall only be used for one consignment for Customs clearance. The validity of each import permit remains the same, which is 3 months.

Please be informed that certification label requirement for communications and multimedia products are mandated under the Communications and Multimedia Act 1998, Communications and Multimedia (Technical Standards) Regulations 2000. In accordance with these, the application of an import permit shall not be entertained if there is no procurement of certification label made for the previous approved import permit of the same company.

Application for certification label shall be made either using eComM or eMas system within 14 working days from the Customs clearance date.

Please be advised that for better traceability and exchange of data between the integrated systems (eComM, eMas and ePermit), importers/certificate holders are encouraged to use the electronic declaration system and the accurate tariff code for the product (note: tariff code subheading under SIRIM Berhad : 8443, 8517,8525, 8526, 8527, and 8529).

The declaration done via electronic system will prompt Sistem Maklumat Kastam (SMK) to generate the electronic K1 number or SANDEC details thus providing the necessary input for certification label application.

For further enquiry, please email to sirimepermit@sirim.my.
